SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicated that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Richard A. Gallo, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project purposes are flood control and municipal and industrial water supply. The planned works of improvement include one multiple purpose reservoir.

The Notice of a Finding Of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Richard A. Gallo.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Foreign-Trade Zones Board

[Docket A(32b1)-14-95]

Foreign-Trade Zone 122—Corpus Christi, TX, Subzone 122J, Valero Refining Company (Crude Oil Refinery); Request for Modification of Restrictions

A request has been submitted to the Foreign-Trade Zones Board (the Board) by the Port of Corpus Christi Authority, grantee of FTZ 122, pursuant to

§ 400.32(b)(1) of the Board's regulations, for modification of the restrictions in FTZ Board Order 414 authorizing Subzone 122J at the crude oil refinery of Valero Refining Company (Valero) in Corpus Christi, Texas. The request was formally filed on July 18, 1995.

The Board Order in question was issued subject to certain standard restrictions, including one that required the election of privileged foreign status on incoming foreign merchandise. The zone grantee has requested that the latter restriction be modified so that Valero would have the option available under the FTZ Act to choose non-privileged foreign (NPF) status on foreign refinery inputs used to produce certain petrochemical feedstocks and by-products, including the following: benzene, toluene, xylenes, other hydrocarbon mixtures, distillates/residual fuel oils, kerosene, naphthas, liquified petroleum gas, ethane, methane, propane, butane, ethylene, propylene, butylene, butadiene, petroleum coke, asphalt, sulfur, sulfuric acid, cumene and pseudocumene.

The request cites the FTZ Board's recent decision in the Amoco, Texas City, Texas case (Board Order 731, 60 FR 13118, 3/10/95) which authorized subzone status with the NPF option noted above. In the Amoco case, the Board concluded that the restriction that precluded this NPF option was not needed under current oil refinery industry circumstances.

Public comment on the proposal is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is August 28, 1995.

A copy of the application and accompanying exhibits will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th & Pennsylvania Avenue, NW., Washington, DC 20230.

Dated: July 19, 1995.

Dennis Puccinelli,

Acting Executive Secretary.
